

RMBTM

Robust Mobile Barrier

The RMB is the first and only mobile barrier in the world that stops heavy trucks and semi-trailers weighing up to 40 tons

Multiterrain asphalt & gravel

Suitable also for urban areas and hot zones

A MUST for every perimeter security professional

Portable, Fast deployment, Modular system.

Physical barrier that prevents motorcycles, ATVs, cars, tractors, trucks and semi-trailers from breaking through.

No anchoring required.

The barrier convert the kinetic energy into potential energy, causing the vehicle to tip upwards in the air and stopping it.

1,600 KJ Energy Absorption
- Equal to 211 Concrete block of 1M³ (2.4 Ton) Movement for 1 Meter Distance.

CAN STOP:

FEATURES

- Patent Pending technology transfers momentum of vehicle to the ground
- Flexible length - individual units fit both together or apart to suit varying vehicle and road sizes
- Designed for use on rocky, rough terrain, concrete, gravel and asphalt
- **Basic color:** Black & Yellow
 - Adaptable as per client request
- **Assembly team:** forklift or crane

OPTIONAL ADD-ONS

- Safety lights and signs
- Pallet jack

BENEFITS

- Cost-effective
- Effective against wheel protection
- Quick installation
- easy and efficient storage
- Transportable by truck, plane, helicopter, etc.
- Zero maintenance
- Zero breakdowns

DIMENSIONS [single unit]

- **Length:** ~300 cm [~120"]
- **Width:** ~100 cm [~40"]
- **Height:** ~200 cm [~80"]
- **Weight:** ~480 kg [~1,060 lbs.]
